“Manroland Sheetfed GmbH, together with its network of sales and service partners and over 40 own subsidiaries worldwide, is continuing to help ensure profitability and growth for our customers in these rapidly changing times...”

Rafael Penuela, Chief Executive Officer,
Manroland Sheetfed GmbH

leading the world in offset printing excellence

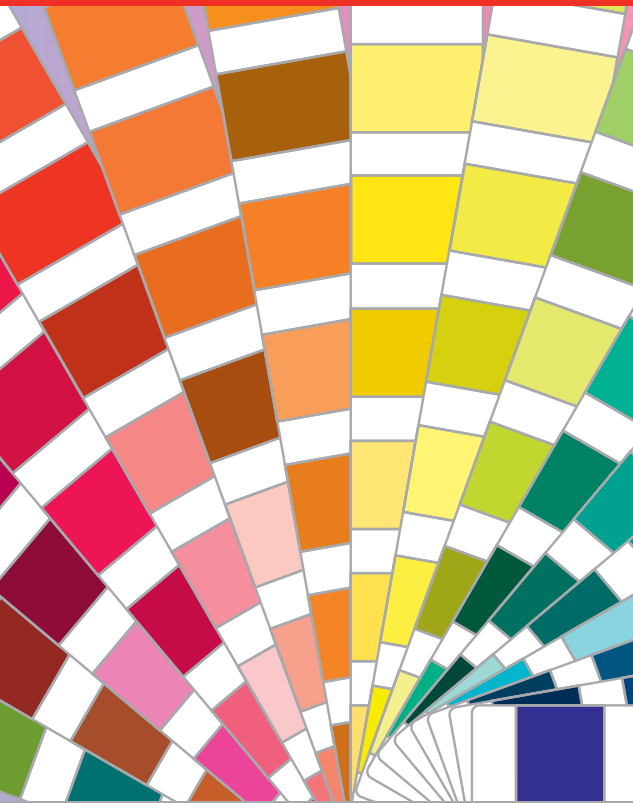

Manroland Sheetfed GmbH is a leading producer of offset printing presses and related technologies for commercial, packaging and publishing applications.

Built on the finest traditions of German engineering excellence since its founding in 1871, the company is a global watchword for innovation, quality and supreme reliability.

Manroland Sheetfed headquarters, Offenbach, Germany.

“The possibility to print on silver or gold foil gives a wide range of bright and fantastic effects which was previously unobtainable and now thanks to the Manroland InlineFoiler has profited our business.”

Angelo Radice, Owner, Grafiche Erredue, Italy.

discover the power of OnePass®

Welcome to the Manroland world of inline enhancement. See, smell, feel – and at the same time discover – something very special; the fascinating effect of a complex printed product achieved with OnePass® technology.

Arouse strong emotions with effect and function coatings, cold foil, matt/gloss, high gloss, scented, pearlescent or textured coatings – our OnePass® technology can transform your business.

highly evolved solutions for the packaging industry

For many years, packaging printers have been placing their trust in the legendary reliability, precision and performance of Manroland press technology. Our end-to-end solutions offer consistently superior accuracy, often after more than 500 million impressions.

“Research and Development at Manroland Sheetfed GmbH is aimed at improving not only the performance of our products, but also their impact on the environment.”

Stefan Finger, Head of Research & Development,
Manroland Sheetfed GmbH

“The ROLAND 700 DirectDrive has opened up new markets and allowed us to enter market sectors which historically we felt we weren’t competitive at.”

Arend Buitendam, Managing Director,
Kingston Carton Ltd, UK

“Manroland provides good solutions with their advanced printing technologies and services. It’s the best choice for us and enables our business to develop rapidly. Our leading position in the printing market in Thailand will definitely be further strengthened.”

Wichai Sakolvararunguang, Managing Director,
Kor Karn PimThien Kwang, Thailand

innovation in commercial print

Our innovative responses to the ever-changing demands of the commercial and publishing sectors ensure the company remains the manufacturer of choice for many leading print houses the world over.

leading the way in large format

While the large format and point of sale sectors continue to be attractive growth areas, printers will only achieve profitability if they can combine efficiency and cost-effectiveness with consistently high quality output. Our large format presses deliver just that. We also produce the world's largest Format 8 perfecting press.

"We were considering a different press manufacturer, but once we looked at Manroland and the 73" press we decided this was a better investment for our future. We were eager to get the new Manroland press into production to take advantage of the new automation and production capabilities."

Fritz Light, Senior Vice President, Foxfire, USA

made in germany

Every press we deliver is designed and built in Offenbach, Germany.

Our facility is a world-class integrated manufacturing complex comprising the group's global headquarters, extensive production and assembly halls, state-of-the-art foundry, training, research and development (R&D) facilities and print technology centre (PTC).

The facility extends to around 114,000m² (1.2 million ft²) located over more than 30 hectares (72 acres).
